

Hamann-Todd Osteological Collection  
Bibliography of Dissertations and Theses  
March 2006

- Anderson BC. Parturition scarring as a consequence of flexible pelvic architecture. 1986. Simon Fraser University, Burnaby, British Columbia, Canada.
- Arter DD. Functional aspects of baboon facial morphology. 1987. Kent State University, Kent, Ohio.
- Asfaw B. Pliocene cranial remains from Ethiopia: New perspectives on the evolution of the early hominid frontal bone. 1988. University of California, Berkeley.
- Bedford ME. Comparative anatomical and fossil evidence for the evolution of the human vocal tract and language. 1987. Kent State University, Kent, Ohio.
- Belovich SJ. Quantitative assessment of dental attrition in adult Gorilla, Pan, and Pongo: A method for estimating age-at-death. 1999. Kent State University, Kent, Ohio.
- Bridgman LB. A Survey of Sacroiliac Joint Fusion in the Hamann-Todd Collection. 1996. Kent State University.
- Bromage TG. A comparative scanning electron microscope study of facial growth and remodeling in early hominids. 1986. University of Toronto, Toronto, Ontario, Canada.
- Busby AM. The ontogeny of the axillary border of the scapula of Neanderthal and modern human juveniles. 2002. Northern Illinois University.
- Clauser PA. Functional and comparative anatomy of the primate spinal column: Some locomotor and postural adaptations. 1980. University of Wisconsin, Milwaukee.
- Cobb WM. Human Archives. 1932. Western Reserve University, Cleveland, Ohio.
- Corner B. A comparative study of the external temporal bone growth in *Pan*, *Gorilla*, and *Homo* and its relevance to basicranial morphology. 1989. S.U.N.Y. at Binghamton, New York.
- Dechow PC. Functional morphology of the craniofacial skeleton of baboons. 1980. University of Chicago, Chicago, Illinois.
- Groh MCR. Determination of race and sex from the crania of a skeletal collection in Dade County Florida. 1994. Florida Atlantic University, Boca Raton, Florida.
- Haug J. Qualitative variation in the dentition of western lowland gorillas. 1979. University of Colorado, Boulder, Colorado.
- Holliday TW. Body size and proportions in the late Pleistocene western old world and the origins of modern humans. 1995. University of New Mexico, Albuquerque, New Mexico.
- Johanson DC. An odontological study of the chimpanzee with some implications for hominoid evolution. 1974. University of Chicago, Chicago, Illinois.
- Jones-Kern KF. Somatic sexual dimorphism in primates and its expression relative to *Homo sapiens*. 1991. Department of Sociology and Anthropology, Kent State University, Kent, Ohio.
- Jones-Kern KF. T. Wingate Todd and the development of modern physical anthropology, 1900-1940. 1997. Bowling Green State University, Bowling Green, Ohio.

Bibliography of Dissertations and Theses  
March 2006

- Kimbel WM . Calvarial morphology of *Australopithecus afarensis*: A comparative phylogenetic study. 1986. Kent State University, Kent, Ohio.
- Kunos CA. Cortical and Cancellous Bone in humans and African Apes: Implications for the evolution of bipedality. 2003. Case Western Reserve University Dept. of Anatomy.
- Kurki H.K. Adoptive Allometric Modeling of the Pelvis in Small-Bodied Later Stoneage (Holocene) Foragers from Souther Africa. 2005. University of Toronto.
- Lancaster TE. Asymmetry in the human appendicular skeleton: a test for differential limb use. 1998. Louisiana State University, Baton Rouge, Louisiana.
- Langdon JH. A comparative functional study of the Miocene hominid foot remains. 1984. Yale University, New Haven, Connecticut.
- Latimer B. Functional analysis of the Pliocene hominid ankle and pedal bones recovered from the Hadar formation, Ethiopia: 1974-1977 collections. 1988. Kent State University, Kent, Ohio.
- Lee S-H. Evolution of human sexual dimorphism: Using assigned resampling method to estimate sexual dimorphism when individual sex is unknown. 1999. University of Michigan, Ann Arbor, Michigan.
- Mahler PE. Metric Variation in the Pongid Dentition. 1973. University of Michigan.
- Medved DM. Premortem tooth loss: A model for estimating adult age at death. 2003. University of Montana.
- Mensforth RP. Paleodemography of the Carlston Annis (Bt-5) skeletal population. 1986. Kent State University, Kent, Ohio.
- Minugh-Purvis N. Patterns of craniofacial growth in upper Pleistocene hominids. 1988. University of Pennsylvania, Philadelphia, Pennsylvania.
- Moore-Jansen PH. A multivariate craniometric analysis of secular change and variation among recent North American populations. 1989. University of Tennessee, Knoxville, Tennessee.
- Nowak M. A comparative analysis of the proximal and subtalar ankle joints in humans and great apes. 2003. Indiana University.
- Ohman J. Morphological variation in the cervico-thoracic region of the vertebral column in modern humans, extant apes, fossil hominids and with reference to mammals in general. 1984. Kent State University, Kent, Ohio.
- Plavcan JM. Sexual Dimorphism in the dentition of extant Anthropoid Primates. 1990. Duke University.

Bibliography of Dissertations and Theses  
March 2006

- Pritchard JL. An osteometric analysis of the patella and femur in Pan, Gorilla, and Homo. 1980. Ohio State University, Columbus, Ohio.
- Proctor DJ. Morphometrics and Multi-Landmark Depth Analysis of the Proximal Hallucal Metatarsal Articular Surface in Hominoids. 2005. Florida Atlantic University.
- Reeves JN. Mechanical and anatomical correlates of intrinsic ankle mobility in three species of callitrichidae, *Callithrix jacchus*, *Saguinus oedipus*, and *Saguinus fuscicollis*. 1991. Kent State University.
- Reilly MC. A comparative analysis of craniofacial sexual dimorphism in living hominoids with applications to a reconstruction of sexual dimorphism in *Homo erectus*. 2003. University of Massachusetts, Amherst.
- Rosenberg KR. The functional significance of Neanderthal pubic morphology. 1986. University of Michigan, Ann Arbor, Michigan.
- Savage C. Lumbrosacral Transitional Vertebrae: Classification of Variation and Association with Low back Pain. 2005. University of Missouri Columbia.
- Schmitt A. Variabilite de senescence du squelette humain: Reflexions sur les indicateurs de l'age au deces: A la recherche d'un outil performant. 2001. University of Bordeaux 1 (L'Universite Bordeaux 1).
- Schratz WW. Basicranial asymmetry and morphological effects on the condyle and ramus. 1989. Case Western Reserve University, School of Dentistry, Cleveland, Ohio.
- Shankland WE. Examination of the development and biomechanics of the hamular process of the sphenoid bone in humans. 1993. Ohio State University, Columbus, Ohio.
- Sherwood RJ. The hominid temporal bone: Ontogeny and phylogenetic implications. 1995. Kent State University, Kent, Ohio.
- Simpson SW. A comparison of dental development in hominoids. 1992. Kent State University, Kent, Ohio.
- Tague RG. Obstetric adaptations of the human bony pelvis. 1986. Kent State University, Kent, Ohio.
- Tatarek NE. Changing views of health: Spinal stenosis and its impact on well being. 1999. Ohio State University, Columbus, Ohio.
- Thompson S. A comparison of the criteria of age determination of human skeletons by cranial and pelvic morphology. 1951. University of California, Berkeley, California.
- Walker RA. The evaluation of bone loss and skeletal age at death from femoral cortical thickness and optical density of radiographs. 1982. Kent State University, Kent, Ohio.
- Walker RA. Assessments of human cortical bone dynamics and skeletal age at death femoral cortical histomorphology. 1989. Kent State University, Kent, Ohio.
