

## Index to Research Request Forms 2007

Approval Date	Researcher	Researcher's Institution	Title
6/25/07	Acevedo, Rich	Smith & Nephew Inc.	Proximal femur locking plate contour verification.
8/20/07	Acevedo, Rich	Smith & Nephew Inc.	Validation of femoral plate contour and screw angulation.
2/15/07	Ackermann, Rebecca	University of Cape Town	Primate hybrids.
4/23/07	Almon, Amanda	Cleveland Institute of Art	Biomedical illustration project: A forensic reconstruction illustration.
4/26/07	Burke, Rachel M.	Louisiana State University	Estimating stature from measurements of the scapula.
3/20/07	Cavanagh, Peter	Cleveland Clinic	Materials for teaching demonstration.
4/23/07	Cranford, Sabin	Pro Sports Orthopedics, Inc.	Correlation between bony/radiographic anatomy of the tibia and meniscal size.
11/8/07	Dautartas, Angela	University of Tennessee	Are cranial morphological traits population specific?: A re-evaluation of traditional sex estimation methodology.
4/9/07	Dickson, Douglas	University Hospitals	Accuracy of torque ratio in predicting bony cervical stenosis and relationship between lumbar and cervical stenosis.
5/31/07	Farrow, Lutul	University Hospitals	Radiographic classification of the postero-lateral rim of the femoral intercondylar notch.
1/15/07	Fellmann, Connie	New York University	Limb ontogeny, function, and the ancestral growth pattern of catarrhines.
7/20/07	Frampton, Jason D.	Cleveland Clinic	A computational reconstruction of foot bone geometry.
1/9/07	Garcia, Ryan	University Hospitals	Tandem stenosis: Does an association exist between cervical stenosis and lumbar stenosis?
2/28/07	Gentz, Rachel	CWRU	Relationship between vertebral bone density and tooth loss in white females.
4/23/07	Gipson, Desina R.	Mercyhurst College	Geometric morphometrics of the human os coxae: Determining ancestral affinity through assessment of pelvic morphology.
11/8/07	Godde, Kanya	University of Tennessee	Are cranial morphological traits population specific? A re-evaluation of traditional sex estimation methodology.
4/23/07	Gonzalez, Obed	Hunter College, CUNY	Quantitative age assessment by way of the first rib.
3/27/07	Greiner, Thomas M.	University of Wisconsin at LaCrosse	Analysis of correlated shape changes between the clavicle and first rib.

## Index to Research Request Forms 2007

Approval Date	Researcher	Researcher's Institution	Title
8/28/07	Griffin, Nicole Louise	George Washington University	Hominid forefoot kinematics, kinetics, and bone architecture.
5/11/07	Grykien, Christopher	Cleveland Clinic	An evaluation of skull bone harvesting sites in the skull.
1/26/07	Holden, Anne	University of California at Berkeley	The evolution of modularity in the dentition of Old World monkeys.
4/23/07	Husmann, Polly	Indiana University	Metric and non-metric analyses of orbits in humans and great apes.
5/2/07	Ikejiri, Takehito	Museum of Paleontology University of Michigan	Timing and sequence of vertebral fusion (epiphysis, neural arch and centrum) in humans and close relatives and its implications for evolutionary and ontogenetic patterns.
10/4/07	Kim, Jaymelee	University of Tennessee	A reassessment of Weaver's Method: The correlation between age and sex in auricular surface development.
3/23/07	Kirchhoff, Claire A.	University of Minnesota	Evolution of human ontogeny: A comparative approach using chimpanzee skeletal biology.
8/20/07	Kirk, Jason	Wichita State University	Cranial suture closure: A quantitative method for age at death estimation using laser instrumentation.
5/17/07	Latz, Randy M.	Kent State University	Morphometrics and bipedality
5/11/07	Lee, Sang-Hee	University of California at Riverside	Patterns of craniofacial and dental variation in chimpanzees and gorillas.
6/25/07	Little, Jill	Youngstown State U.	Assessment of sex and ancestry through use of foramen magnum.
4/23/07	MacCord, Katherine	University of Pittsburgh	Establishing criteria for aging subadult skeletal material.
4/23/07	MacLatchy, Laura	University of Michigan	The mandible of Morotopithecus.
10/11/07	Makower, Joshua	Exploramed, NC4	Creation of a database of distal femur and proximal tibia geometries.
1/24/07	Masterson, Thomas	Central Michigan U.	Predicting functional range of motion.
1/5/07	Miller, Kathy	Synthes	Clavicle plate design testing.
1/12/07	Moster, Daniel	University Hospitals	The effects of lumbar facet sagittal angulation on lumbar arthritis.
1/26/07	Nelson, Micki	Western Michigan U.	Stature and wealth: The fallen warriors at the battle of Wisby.

## Index to Research Request Forms 2007

Approval Date	Researcher	Researcher's Institution	Title
4/9/07	Oldenburg, Frederick P.	CWRU Medical School	Topographic anatomy of the anterior cruciate ligament femoral insertion.
2/7/07	Overbury, Rebecca	Mercyhurst College	Asymmetry of the os pubis.
7/11/07	Polk, John D.	University. of Illinois at Urbana-Champaign	Detecting natural selection in the primate postcranial skeleton.
7/11/07	Proctor, Daniel	University of Iowa	Quantitative shape analysis of the proximal metatarsal articular surfaces.
5/23/07	Quay, Rachel	Synthes	Clavicle shaft anatomy.
10/29/07	Qureshi, Sheeraz	University Hospitals	Correlation of the Torque Ratio with decreased space for the spinal cord.
11/5/07	Qureshi, Sheeraz	University Hospitals	Fate of L5/S1 disc in relation to deep seatedness of L5 body
4/23/07	Rappazzo, Kimberly	Mercyhurst College	New age ranges for the Iscan age at death from the sternal end method
8/28/07	Rich, David B.	Zimmer, Inc.	Gender and ethnic differences in bone morphology.
2/26/07	Ridgeway, Beri	Cleveland Clinic	Characterization of bony pelvis landmarks used in pelvic surgery.
3/2/07	Rolian, Campbell	Harvard University	Morphological integration in primate hands and feet.
2/1/07	Sarig, Rachel	Tel Aviv University	Etiology and pathophysiology of the "concave-convex" wear pattern in the lower dentition.
11/16/07	Sarringhaus, Lauren	University of Michigan	The ontogeny of locomotion in chimpanzees.
1/27/07	Semeraro, Dominique	Mercyhurst College	Dimorphism of the radial head diameter and its potential for sex assessment.
3/19/07	Shea, Brian T.	Northwestern U.	Patterning of variation in craniofacial angles in the domestic dog.
7/13/07	Shirley, Natalie	University of Tennessee	Reevaluation of basilar suture closure in Americans.
7/13/07	Shirley, Natalie	University of Tennessee	Fusion of the medial clavicular epiphysis: A reevaluation of present scoring systems.
7/13/07	Shirley, Natalie	University of Tennessee	Sex determination of sub-adults using the clavicle.
6/25/07	Silverman, Kenneth	Cleveland Clinic	Biomedical advantage of five lumbar vertebrae in the evolution of the genus "Homo".
9/6/07	Singh, Rajit Kaur	University of Montreal	Can we assume that there exists a typology in the human female birth canal?: its implication regarding parturition and labor management

Approval Date	Researcher	Researcher's Institution	Title
12/14/06	Su, Anne	SUNY at Stony Brook	Comparative study of the internal microarchitecture of tibiotarsal bones within primates.
5/31/07	Su, Denise	University of California at Berkeley	Variation in Carabelli's cusp in Australopithecus.
1/26/07	Tague, Robert	Louisiana State University	Association between cervical rib and sacralization of lumbar vertebra in humans.
8/21/07	Taylor, Andrea B.	Duke University	Jaw-muscle fiber architecture and feeding behavior in large-bodied hominoids.
4/23/07	Timm, Mary Beth	Western Michigan U.	Spondylolysis and spondylolisthesis: a whaleing connection?
2/20/07	Toogood, Paul	CWRU Medical school	Documenting proximal femoral anatomy in arthritic and non-arthritic specimens.
3/2/07	Trask, Willa R.	Wichita State University	Morphometric analyses of orbital aperture shape with regard to sexual dimorphism and group affiliation.
9/11/07	Vick, Anna	University of Florida	Effect of growth disruption on adult skeletal morphology.
11/5/07	Williams, Scott A.	University of Illinois	Phenotypic integration of the African ape third manual ray.
